

COR COMPLIANCE PACKAGE

Tailored COR Health & Safety Manual and accompanying Documents, Forms, Templates, and additional services --- \$2,950

COR HEALTH AND SAFETY MANUAL

| | |
|-----------------------------|--|
| Company Information | Company Profile, Organizational Chart & Logo are included in the Manual. If you do not have an Organizational Chart, we include templates to capture the company positions/disciplines as required to obtain COR or SECOR. |
| Customization | Health & Safety Manual is tailored to your Company, Operations, and the COR Audit requirements. |
| Form Description & Schedule | Provided within each Manual is a description of both Standard & Specialized Forms, along with a schedule for completion. |
| Implementation Guide | A complimentary Guide is provided with each manual to successfully implement the company-wide health & safety system to obtain/ maintain COR certification. |
| Company Dashboard | You will have 24/7 access to view, download and print Company documents. We provide Legislation, Industry & COR/SECOR updates as they occur, that may impact your health and safety manual. You can also receive new documents through the dashboard. |
| Additional Customization | <p>If you require any additional Work practices or Policies not listed in the Questionnaire or Company-Specific Processes – the Manual can be updated to your Company specifications.</p> <p>Proceed with the online 20-Step Questionnaire manual creation and then contact us for additional development.</p> |

STANDARD WORK & CODES OF PRACTICE

| | |
|----------|---|
| Included | Choose from over 60 standard work practices and policies applicable to your operations. |
|----------|---|

FORMAL HAZARD ASSESSMENTS

| | |
|--------------------------------------|---|
| Included | <p>You will receive our all-inclusive Formal Hazard Assessment (FHA) Tool to meet all the criteria of COR. Within this tool, you will list all the Company positions/disciplines, task inventory, task hazard assessments, list and track job-specific training, qualifications, and job descriptions.</p> <p>This tool meets all the requirements for COR and organizes the information into one document for ease of reference during an audit.</p> |
| Why we don't provide completed FHA's | Formal Hazard Assessments are specific to a Company's operations and should be developed by the subject matter experts. We provide you with all the tools necessary to develop and maintain the FHA's. If you require additional support with the development, please contact us and one of our Health and Safety Team members will schedule a meeting to review your requirements. |

* [Contact Us](#) for more information on our Health & Safety Manuals Services.

EQUIPMENT INVENTORY & PM

| | |
|--------------------|--|
| Included | <p>Included with your standard Forms and Templates, you will receive a tracking inventory for Company Equipment and Maintenance Log.</p> <p>If you require assistance with adding equipment, tools, vehicles, etc. to the inventory, please contact us and one of our Health and Safety Team members will schedule a meeting to review your requirements.</p> |
| Formal Inspections | <p>Included with your standard Forms and Templates, you will receive a Formal Inspection Schedule to populate all required inspections. This will track the assignment of inspection, and frequency of completion.</p> |

HEALTH SAFETY FORMS

| | | | |
|---|---|---------------------------------|------------------------|
| Included with your Health and Safety Manual and customized with your Company Logo | <p>Choose from over 100 Standard and specialized Transportation Safety Forms and Templates to allow for seamless integration of the Health and Safety Manual into the company operations.</p> | | |
